The infamous Fluxus "anti art" movement that started in the 1960s is getting a retrospective exhibition at the Bob Rauschenberg Gallery in south Florida that shines a light on the music and sound wing of the "intermedia" FLuxus spectrum.

Including new works from Fluxus sound vets Yoko Ono (!) and **Alison Knowles**, this exhibit will be interactive, with an eye toward the movement's past and future. Expect the unexpected.

FluZusic/FLUXUS MUSIC opens Friday, Aug. 25, at the **Bob Rauschenberg Gallery** and runs through Nov 17. Fluxus all-star Alison Knowles (!) will be on hand for a Q&A and exhibition walk-through on the morning of Friday, August 25th at 11am
